

EUMETNET - E-TREND Joint Workshop on Postprocessing, Forecasting and Nowcasting for Renewable Energy (RenEUCast)

Monday, 8 December 2025

Operation & Decision-making - U-Residence (13:40 - 16:50)

-Conveners: Joris Van den Bergh

time	[id] title	presenter
13:40	[20] Forecasting Belgium's Solar Future: Climate Change Impact on PV Energy Output	Mr DE JONG, Richard
14:05	[5] HireNext: High Resolution forecasts for Next Generation Dynamic Line Rating computation	VAN OYEN, Tomas
14:30	Coffee break	
15:10	[21] Identifying hotspots of adverse weather for Austrian energy infrastructure	Dr SCHICKER, Irene
15:35	[2] Machine-learning informed stochastic control of a hybrid wind-battery plant operating under time-dependent grid constraints	ALLY, Stijn
16:00	[10] Renewable forecasts as an enabler for Elia's operations	VANMAELE, FREDERIK
