

EUMETNET - E-TREND Joint Workshop on Postprocessing, Forecasting and Nowcasting for Renewable Energy (RenEUCast)

Tuesday, 9 December 2025

Postprocessing - U-Residence (09:00 - 12:30)

-Conveners: Sebastian Lerch

time	[id] title	presenter
09:00	[9] User-Informed Post-Processing: Designing Around Decision-making Requirements	LAKE, Alice
09:50	[14] Probabilistic forecasting of spatially aggregated wind power production using Bernstein Quantile Networks.	BREMNES, John Bjørnar
10:20	Coffee break	
11:00	[7] The Zero Degree of Freedom Non-Central Chi Squared Distribution for Postprocessing of Precipitation Forecasts	MÖLLER, Annette
11:30	[19] ENTSO-E API Python Package: Streamlining Access to European Electricity Market Data	Dr BERRISCH, Jonathan
12:00	[28] Joint lead time precipitation forecast post-processing using deep generative models	MLAKAR, Peter
